About the Brand

Topolansky's known yet unique style continues to evolve. Years of traveling the globe for inspiration uncovered an instinct for identifying beautiful and timeless creations. Being well established and having rooted a deep and broad experience in the trade, developed an appreciation for the cleverest designs, quality materials and the best hand craftsmanship. Topolansky's style is about balancing a respect for the old with a healthy streak of innovation and contemporary styles with an added touch of timeless in its designs. Our leather furniture is not precious and certainly not for show – it's designed to be used, and to become better with use. Worn in, lived in. Our unique style plays with tradition, looks at the classics with modern eyes, and produces something fresh, exciting and current. Topolansky Fine Furniture, the brand, offers products designed and made using a number of natural materials, authentic hand craftsmanship and traditional fabrication techniques. It seeks to combine pieces into a distinctive and unique look that appeals to the discerning buyer of high quality furniture.

About the Company

Topolansky was established in 1992. We import Furniture and other decorating accessories with an emphasis on Quality and Value. The timber we use to manufacture our Premium wooden furniture collection is by means of Hand Picked Solid First Grade Mahogany and Teak timber.

We only make use of the best quality Full Grain Leather on all our leather products. Our company values its relationship with our clients above all else. We have a long history with loyal customers buying goods from us over many years. It is this ethos which places us in a unique position in the market place. The owner of the company is always available for advice and to deal directly with our clients. Our Galleries are situated in the heart of Sandton, in the new and exciting Kramerville Design Hub and also in Pretoria East on Lynnwood road. As a company we have gotten involved in our community, holding charity auction sales for worthy causes which improves the quality of life for those less fortunate.

CREATION OF BESPOKE FURNITURE

AUTHENTIC HIGH-QUALITY HANDCRAFTED LEATHER

Only the finest full grain, full aniline, natural leathers are used, showcasing the natural beauty of the materials. Here, aniline hides are coloured with translucent dyes and are famously soft, buttery, tactile, and very silky to the touch. No two hides are the same and these only get better with age.

THE ART OF PRECISION

HOW WE GIVE OUR LEATHER AN UNMISTAKABLY RICH & UNIQUE PATINA

We colour and wash all the leather with a translucent dye, done by hand, after which it is buffed and polished using limestone pebbles, lamb's wool and natural fibre to enhance the skin's innate qualities.

DESIGNS STANDING THE TEST OF TIME

VICTORIAN DINING TABLE

The Victorian era of British history (and that of the British Empire) was the period of Queen Victoria's reign from 20 June 1837 until her death, on 22 January 1901. It was a long period of peace, prosperity, refined sensibilities and national self-confidence for Britain. Stylish and long lasting designs of furniture came to live and still stands strong in the market of modern times.

REGENCY PEDESTAL DESK

Most Regency desks made in the 19th century were built of high quality woods such as oak, mahogany or walnut and finished with tooled leather inserts on top and brass fittings all around. Many reproductions have been made in the 20th century.

PARTNERS DESK

This piece of furniture was first conceived in the United Kingdom to accommodate the work of banking partners. These gentlemen were usually senior bank officials who wished to work together while keeping the convenience and the prestige of a pedestal desk.

WE SUPPORT RESPONSIBLE FORESTRY

We only buy from Government
controlled forestry.

If it doesn't support the
local community,
we keep looking...

WE CARE

Everything is overseen by
the Indonesian government to ensure these
trees are protected.

WE GIVE BACK

Strict replanting programmes are in place in
these plantations

EU TIMBER REGULATIONS

We are deemed & proud to comply with EU
Timber requirements

NO ILLEGAL LOGGING

We aim to reduce illegal logging by ensuring
that no illegal timber products are imported
or sold
